

2025 Spring Quenda Count Data Sheet

OFFICIAL

Department of Biodiversity,
Conservation and Attractions

Site Information Name of lead observer(s):		Phone:	Email:
Survey site address (e.g. residential street address or park name and suburb):			
Estimate size of survey site: The preferred search area is 50m x 50m.		____ m x ____ m or ____ m ²	
Description of survey site: ☐ Suburban garden ☐ Semi-rural house-block ☐ Suburban park/sports field/golf course ☐ Native bushland e.g. national park ☐ Bushland adjacent to wetland/river ☐ Other: _____			
More location detail e.g. GPS location, nearest crossroad, position in park/nature reserve. Include any changes to the site since the last survey.			

Survey Data

Step 1) Choose any week in October and do at least one Quenda Count – a single survey is useful but we encourage you to do two or three, spaced by at least one day.

Step 2) Conduct your surveys – look out for quendas in your survey site and record how long you spent looking and how many unique quendas you saw. ***If you don't see any quendas on any day that you are looking for them, write zero (0) for that day. This is very important data!***

	Survey 1	Survey 2	Survey 3
Date	(dd/mm/yy)	(dd/mm/yy)	(dd/mm/yy)
Total time spent looking for Quenda (no. minutes)			
Number of quendas seen			

Additional Questions

In general, how often do you see quendas in your survey site? (choose whichever is the closest answer)
Occasionally (a few times a year) ☐ About once a month ☐ About once a week ☐ Most days ☐

Compared to the same time last year, has there been any change in how often you see quendas in your site?
I see quendas: Less often ☐ About the same ☐ More often ☐

Do you see fresh cone-shaped diggings at your site? YES ☐ NO ☐

Have you seen any dead quendas this year (inside or outside the survey site)?
Write a number next to each relevant cause of death (if you can't remember, your best estimate is fine):
Road kill: ____ Cat: ____ Dog: ____ Fox: ____ Other/Unknown: _____ Total: _____

Have you noticed any quenda with extensive areas of bare skin, patchy or missing fur? YES ☐ NO ☐

Are there any features of your site that you think encourage quendas to visit? YES ☐ NO ☐
If yes, please comment: _____

Are there any factors that you think may discourage quendas from visiting your site? YES ☐ NO ☐
If yes, please comment: _____

Any other comments: _____

Please return completed data sheets by 8 November 2025 to: quenda@wagouldleague.com.au
